

REMARKS

In section 3 of the Official Action dated June 19, 2006 the Examiner states that currently pending claims 19-30 would be allowable if the rejections on the ground of nonstatutory obviousness-type double patenting set forth in sections 1 and 2 of the same Action are overcome.

Enclosed herewith is a signed Terminal Disclaimer together with a Statement under 37 CFR 3.73(b). It is submitted that this application is now in condition for allowance. Kindly charge the Terminal Disclaimer fee to deposit account no. 08-2025.

For the record, the Assignee wishes to state that it does not believe that the double patenting rejection is proper. If the present claims and the issued claims had been prosecuted in a single application, it is believed that the Examiner would have come up with rationale for asserting that the claim are sufficiently different to warrant a restriction requirement.

Reconsideration is respectfully requested.

The Commissioner is authorized to charge any additional fees, which may be required or credit overpayment to deposit account no. 08-2025. In particular, if this response is not timely filed, then the Commissioner is authorized to treat this response as including a petition to extend the time period pursuant to 37 CFR 1.136 (a) requesting an extension of time of the number of months necessary to make this response timely filed and the petition fee due in connection therewith may be charged to deposit account no. 08-2025.
